All in all, the property has 257.39 mts2 built plus 96.70 mts2 of roof terrace with 360° views. It is distributed as follows: ground floor: entrance hall and bodega / storeroom with an area of 56.75 mts2. 1st floor: restaurant siting area and professional kitchen and services. 2nd floor: lounge / dining room, 2 bedrooms and a bathroom with shower. From this level there is also access to the roof terrace which during the summer months becomes part of the restaurant. There is also a small service lift communicating the kitchen with the roof terrace.

The property is sold as seen. The current owners have had the property since 1986 and although they are now retired the restaurant license is still in place. If you are looking for an opportunity to allow you to live and work from the same place this is worth viewing. The architecture of the building is quite interesting too with exposed rocks and so on. Another great advantage is that it is possible access all the way to the front door of the property and subject to planning permission, part of the ground floor can be converted into a garage.
